

Village of Bradner Ohio Bid Specifications for the construction of a splash pad at the Bradner Village Park.

- Bidding process will run from September 11th 2024 at noon to October 3rd at noon.
- Public opening will be October 3rd at the Village council meeting, and notification will be made on October 4th by noon via email.
- This will be a freshwater system. (freshwater to drain)
- Please provide manufacturer technical specs for equipment.
- Size of the splash pad to be somewhere between 900-1500 square feet
- Excavation of the site
- Installation of the concrete deck, Five (5) inch pour with rebar or fiber additive, medium broom finish and joints.
- Installation of splash pad and toys
- Rough grading of site and removing of spoils and site restoration when finished
- “Toys” to include but not limited to hoop, umbrella, ball/turtle, single dump bucket (small, med, or large) or any other “spray from the pad” up. Any combinations of these, not necessarily all.
- Will be Bollard or pressure activated so the water does not run continually

- Village will bring up to a 2" water line and up to a 6" sewer line within 10' of the site. Company will be responsible for all plumbing connections
- Village will run electric up to 10' of the site. Company will be responsible for all electric connections from there.
- Winterization covers that pertains to the toys and splash pad
- Installation of pad to be completed by May 1st 2025
